The ISO 20121 event sustainability management system international certification process initiated by the EYE complements this commitment and is fully in line with this global approach. The ISO 20121 standard sets a framework that supports the achievement of the sustainable development goals established for the EYE, aiming for continuous improvement and always in full respect of the legal, health, safety and other requirements applicable to the event.

The Directorate for Campaigns is fully committed to ensuring the implementation of the EYE Sustainable Development Policy.

To achieve this, the Youth Outreach Unit has been allocated with the necessary resources and is supported by the other relevant services of the European Parliament. Throughout this process, the Youth Outreach Unit is always driven by inclusivity, integrity, accountability, and transparency towards all stakeholders.
